

# Voir Dire Form

## Instructions

The presiding judge is to complete this form during the jury selection process. Beginning with the Defense, when an attorney makes a motion to strike a potential juror from the jury, they must give a reason. Write down the reason, take the juror’s questionnaire, and fill in the individual’s name. Then, assign that person to play the part of a witness by filling their name in next to one of the witnesses. Toward the end of the process, attorneys may pass if they have no further challenges, or if there are no more jurors left in the jury pool. When the jury selection process is complete, write the names of the members of the jury on the corresponding section of this form. 11 people are needed to play the parts of witnesses – the size of the jury may change depending on the number of potential jurors left.
